

Elegant and playful — The New Caren Pflieger Spring/Summer 2016 Collection

Light, playful and wearable: Once again the new Caren Pflieger Spring/Summer 2016 Collection focuses on the proven combinations between glamor and practicality, quality and simplicity.

A time where global connection has become a matter of course and where it's easy to feel at home in the whole world calls for fashion that supports a dynamic lifestyle. We at Caren Pflieger have made it our mission to meet this need by focusing deliberately on wearable and easily combinable all-time favourites that let their wearer shine in a timeless and feminine elegance – wherever you are.

The Caren Pflieger bestselling ›Travel Wrap‹ made of high-quality cashmere is a symbol of the modern urban nomads: it is a cuddly companion when travelling and protects you from cool summer nights. The Spring/Summer Collection plays with the combination of wide cuts that emphasise the feminine silhouette in a special way with a bohemian flair – conveyed by leather fringes and playful patterns.

The pieces of the Caren Pflieger collection feature natural and pastel shades and are made of various high quality materials such as cashmere, silk and cotton. They can be combined with each other perfectly and keep their fresh and radiant look for a long time. Due to their exceptional quality, our fashion is a faithful companion and will become part of your favourite moments and memories.
